## AWARD NOMINATION

NEW DELHI

## SEEM Inspiring Energy Efficiency

Instituted in 2014, SEEM National Energy Management Awards recognize and support best efforts taken by various sectors for improving energy efficiency, thereby supporting India's journey towards climate change mitigation, de-carbonization and sustainable development.

SEEM National Executive Council invites applications for the prestigious SEEM Awards 2022.

Over the years SEEM has perfected a multi pronged evaluation criteria to sift through data to accord right prize to an aspirant. This approach ensures that assessment does not get skewed based on production levels.

SEEM, the professional body of certified energy professionals in India, supports the country's energy efficiency movement since its inception. Being the largest group of Certified Energy Auditors & Certified Energy Managers in India, Our members tirelessly support the cause of energy efficiency in the country directly and indirectly.

### SEEM AWARDS 2022

Corporate profile

SEEM Energy Management Awards 2022 is the most valuable and popular award in among energy industry. Last seven years SEEM organising award functions and many prominent companies from various industries achieved this awards all over India. The number of award winners are increasing every year.

As in the past, this year too, the award is being organized at New Delhi on 21st September 2023.

Focus on systematic actions towards sustainable energy performance

distinguishes SEEM awards from other awards. The evaluation holds a mirror to the organizations giving an opportunity to introspect and revitalize their journey towards excellence.

Energy Conclave which precedes the Award function is an occasion to get familiar with new concepts, technologies and equipment, discussed by domain experts.

### Innovative Energy Product(s) of The Year Awards

The award recognizes innovative products that save energy and reduce carbon emissions. The evaluation committee assesses innovation, affordability, scalability, and ease of use. Innovators can submit nominations to receive expert evaluation and potential exposure to national clients. This aims to increase product visibility and inform users of new offerings.

### Energy Conservation Start Up Awards

This award promotes start-ups that develop products or services to reduce energy consumption. Early-stage start-ups can apply, and a panel of judges will evaluate their energy-saving effectiveness, founder commitment, and organizational stability. Awardees receive national exposure to potential clients. The aim is to encourage innovative products and services for a cost-effective, efficient, and effective transition to clean energy.
