SEEM National Energy Management Awards

2023

## SEEM Awards 2023

We are thrilled to extend our warmest congratulations to you for your exceptional accomplishment at the SEEM National Energy Management Awards. The SEEM Awards serve as a beacon, illuminating and celebrating the remarkable efforts put forth by diverse sectors in enhancing energy performance. Your achievement stands as a testament to your dedication and foresight in driving positive change.

The SEEM Awards hold a distinct purpose – not only to acknowledge and appreciate your commitment but also to inspire a more profound and widespread movement. These success stories, such as yours, possess the power to ignite a cascading effect, propelling India towards its ambitious NetZero target.

At the heart of the SEEM Awards lies a distinctive evaluation approach. Rather than focusing solely on the percentage of energy savings achieved within the assessment year, the awards recognize systematic and sustainable actions towards improving energy performance. This equitable approach ensures that assessments remain unbiased and uninfluenced by variations in production levels.

Your unwavering dedication to energy conservation is evident through your emphasis on crucial factors. The importance placed on involving employees in the energy conservation journey, implementing effective energy monitoring and review mechanisms, providing comprehensive employee training, conducting periodic energy audits, and managing condition-based maintenance to enhance energy efficiency is truly commendable. Additionally, your commitment to embracing cutting-edge energy conservation measures, fostering innovation, utilizing renewable energy sources, and raising mass awareness through initiatives like the National Energy Conservation Day/Week demonstrates your comprehensive approach towards sustainable energy practices.

From a pool of nearly two hundred exceptional participants, the SEEM Award jury has identified your exemplary performance in industries, facilities, and individual categories. Your dedication to excellence and your impactful contributions have set you apart as a leader in your field.

We are excited to announce that the **SEEM Awards 2023 ceremony will take place at The Suryaa Hotel, New Delhi, on September 26 & 27, 2024**. This will be a momentous occasion, bringing together visionaries, leaders, and change-makers who share a common goal of fostering sustainable energy practices.

Once again, congratulations on your exceptional achievement. Your hard work, determination, and innovative thinking have not only propelled you towards success but have also propelled India towards a greener and more sustainable future. You are an integral part of India's march towards green glory, and we are proud to recognize your outstanding contributions.

Wishing you continued success and a future filled with even greater accomplishments

For SEEM Awards 2023 Committee

G. Krishnakumar  
Chairman
